## DERMOPROTETTIVO

### DERMOPROTECTIVE CLEANSER

With Vegetal Coal and Tea Tree Oil

The DERMO-PROTECTIVE CLEANSER, with vegetable charcoal and tea tree oil has been designed to gently cleanse sensitive skin and haircoat and to prevent from infections. Vitamin E, added to the formula, with its recognised antioxidant action, soothes and moisturises the skin, reducing any inflammation.

Vegetable Charcoal, which determines the color, effectively protects the haircoat from environmental pollutants thanks to a "lightly scrubbing action" and, thanks to its micro cellular structure, acts like a sponge, absorbing and capturing dirt, toxins and sebum in excess.

In addition, its detoxifying and rebalancing properties make it an ideal product for the beauty routine of all types of haircoats and breeds.

It is the perfect ally for mixed and oily skin because, thanks to its natural absorption and rebalancing capacities, it is able to balance excess of sebum.

The DERMO PROTECTIVE CLEANSER is also ideal for purifying the coat from harmful micro organisms and thanks to the Tea Tree and Geranium Oils, makes it a very effective and recommended for calming redness and itching, having antibacterial and antifungal power.

INCI	PROPRIETÀ
BETAINE Amphoteric surfactant	It is derived from coconut oil. It is derived from coconut oil. Thanks to its characteristics, it can be mixed with other surfactants (anionic, cationic, non-ionic) to reduce its aggressiveness, making the formulation suitable for sensitive skin.
SODIUMCOCOYL GLUTAMATE Anionic surfactant	It has excellent skin tolerance and good cleansing power. It is an eco-friendly surfactant obtained from renewable raw materials as it is derived from coconut oil and fermented sugars.
VEGETABLE GLYCERINE Nourishing	It is an excellent substance for nourishing hair, especially if it is dry and brittle. It deeply moisturises and gives perfect elasticity and softness by promoting the regeneration of the epidermal cells. It also has protective, emollient, decongestant and refreshing properties.
GUAR FLOUR Rheological additive	Guar forms a film on the hair and skin, generating a protective, moisturising, conditioning and lubricating effect. Guar reduces the irritating effect of surfactants on the skin and coat and forms a protective film. It improves brushing and gives the hair shine, moisture and softness.
SODIUM PHYTATE Natural chelating agent	It is the sodium salt of phytic acid, a naturally occurring chelating agent obtained from wheat bran and rice. No skin irritation or sensitisation has been detected. It is a biodegradable product.
PANTHENOL Active	It treats and purifies the skin and hair. In addition to its well-known moisturising properties, panthenol is also emollient and soothing. It has remarkable moisturising properties, as it is able to give the right amount of moisture to the hair (avoiding dehydration and brittleness). It is non-toxic, non-sensitising and non-irritating to the skin.
GERANIUM ESSENTIAL OIL	Proprietà antinfiammatorie, astringenti, lenitive. Utilizzato sulla pelle ha un forte effetto cicatrizzante ed equilibrante.
TEA TREE OIL Active	It is a natural antibiotic adjuvant in the prevention of infections, has antifungal, antibacterial and antiparasitic properties. Excellent to fight effectively against bad smells.
VITAMIN E Antioxidant	It reduces UV damage to the skin by relieving burns and restoring the skin's natural balance.
VEGETABLE CHARCOAL Active	Its porous structure makes it ideal for absorbing toxins, minerals and other substances harmful to the skin, with an excellent purifying and detoxifying function.

#### HOW TO USE:

Take a small amount of product,  
Dilute as required (we recommend 1:30).  
Apply to wet hair,  
Massage and rinse with water.  
SHAKE WELL THE PRODUCT BEFORE USE

SIZES: Long hair/Short hair

Professional: 5 lt jerry can//1 lt bottle

#### DATA SHEET:

APPEARANCE : Liquid

COLOR : Black

ODOR : Geranium and Tea Tree Oil

PH: 6 ± 0.5

FLAMMABILITY : Non Flammable

Standard : 200 ml bottle

WARNINGS: do not use on infected wounds, burns

# MASCHERA IDRORESTITUTIVA HYDRORESTORATIVE MASK

with Provitamin B5 and Sage Essential Oil

The HYDRORESTORATIVE MASK detangles the coat, leaving it soft and shiny. The presence of provitamin B5 (Panthenol) favours hydration and nutrition, making the damaged coat softer, shinier and more fragrant. Due to its formula it helps to shorten drying times.

Recommended for dogs of all breeds and for all hair types.

INCI	PROPRIETÀ
HYDROXYPROPYL BIS-HYDROXYETHYL DIMONIUM CHLORIDE Cationic Humectant	It is highly hygroscopic to all moisture, attracts and binds water extremely effectively and provides a higher protective layer of moisture on the skin and hair to improve hydration
PANTHENOL Active	It treats and purifies the skin and hair. In addition to its well-known moisturising properties, panthenol is also emollient and soothing. It has remarkable moisturising properties, as it is able to give the right amount of moisture to the hair (avoiding dehydration and brittleness). It is non-toxic, non-sensitising and non-irritating to the skin.
SAGE ESSENTIAL OIL Active	Antibacterial deodorant on odour-producing micro-organisms, healing skin, has an anti-inflammatory, antimicrobial action and repairs the skin tissue. It is indicated for dermatitis, insect bites, skin ulcers, fungal infections such as mycosis and candidiasis.
CETEARYL ALCOHOL Emulsifier	Made from wheat and coconut oil this is an emulsifier of natural and vegetable origin. It gives texture and richness to the formulas and improves their texture it will be softer, emollient and stable. It has emollient, volumizing and nourishing properties for the hair
VITAMIN E Antioxidant	It reduces UV damage to the skin by relieving burns and restoring the skin's natural balance.
LAURYL MIRISTYL ALCOHOL Emulsifier	A fatty alcohol derived from vegetable oils is easily biodegradable and GMO-free. Its effects are emollients, emulsifiers and lubricants.

## HOW TO USE:

Apply the HYDRORESTORATIVE MASK to the still wet coat, wash with our ACTIVE DOG cleansers. Massage and leave on for a few minutes. Rinse thoroughly. Dry.

## DATA SHEET:

APPEARANCE : Creamy  
COLOR : Light Rose

# DETERGENTE SGRASSANTE DEGREASER CLEANSER

with Jujube Bark Extracy, Lemon and Lavender Essential Oils

A formula designed to regulate sebum with special attention to the dog's physiology. The DEGREASER CLEANSER gently degreases and cleans the skin and coat thanks to the active ingredients it contains. Jujube bark extract regulates sebaceous secretion and restores the skin barrier.

It calms, soothes and normalises cell renewal

Lemon essential oil has the following properties :Antioxidant and has a strong degreasing property.

Lavender essential oil has a healing effect and helps with reddened or irritated skin.

INCI	PROPRIETA'
ZIZIPUSJUJUBA MILLER Active	Antioxidant activity. Extracts of Ziziphus jujuba Miller have a strong antioxidant action especially on the superoxide anion radical, by inhibiting, among other things, lipid peroxidation and reducing depolymerization oxygen-induced hyaluronic acid.
HYDROXYPROPYL BIS-HYDROXYETHYL DIMONMIUM CHLORIDE Cationic Humectant	It is highly hygroscopic to all moisture, attracts and binds water extremely effectively and provides a higher protective layer of moisture on the skin and hair to improve hydration
SACCHARIDE ISOMERATE Active	Of plant origin, derived from wheat, it has an effective moisturising action, it nourishes, soothes, decongests, and binds to the skin like a magnet by creating a synergy with the keratin present in the body. It is dermo-compatible and therefore does not cause irritation or redness
AMMONIUM LAURYL SULFATE Anionic surfactant	Primary anionic surfactant of vegetable origin, derived from coconut oil, easily biodegradable. Suitable for high quality production.
PANTHENOL Active	It treats and purifies the skin and hair. In addition to its well-known moisturising properties, panthenol is also emollient and soothing. It has remarkable moisturising properties, as it is able to give the right amount of moisture to the hair (avoiding dehydration and brittleness). It is non-toxic, non-sensitising and non-irritating to the skin.
LEMON ESSENTIAL OIL Active	In cosmetics, lemon essential oil is mainly used for its astringent and antiseptic action, which makes it an ally against acne, boils, skin impurity and excess sebum.
LAVENDER ESSENTIAL OIL Active	The use of lavender oil helps to improve a number of negative skin conditions, from wounds to allergic reactions to acne. Its anti-inflammatory and antioxidant properties help relieve stressful skin conditions.

## HOW TO USE:

# DETERGENTE RIVITALIZZANTE REVITALIZING CLEANSER

with Ylang Ylang Oil and Snail Slime

REVITALISING CLEANSER is a product designed to clean, care for and revitalise weak, fragile, brittle and dull coats. This specific formula provides softness and shine, totally revitalising the coat thanks to its special blend of active ingredients. Among these active ingredients, we have the snail slime, rich in bioactive, antioxidant and glycoprotein properties.

Indeed, snail slime has the following properties: Moisturising, composed of 90% water, it can give the coat a radiant, shiny and healthy appearance. Emollient, thanks to its gelled compound, it will make the hair more fluid and less rebellious with the comb. Cell regeneration, thanks to its action against free radicals, snail slime can protect the hair from damage caused by shampoos or aggressive brushes. Anti-inflammatory, used primarily against skin lesions, snail slime also repairs and lubricates the skin. Ylang Ylang essential oil helps to rebuild skin tissue by stimulating the activity of the scalp and hair bulb. It is an excellent restructuring agent that makes the coat silky, moisturising, nourishing and fragrant, leaving it smooth and soft. It also acts as a calming agent, the inhalation of its scent relaxes the animal from stress during grooming.

INCI	PROPRIETA'
SNAIL SECRETION FILTRATE Active	The predominant substances in snail slime are collagen, ideal for moisturising the skin and glycolic acid for cell regeneration, Vitamin E, with antioxidant and anti-inflammatory action, to repair connective
HYDROXYPROPYL BIS-HYDROXYETHYL DIMONIUM CHLORIDE Cationic Humectant	It is highly hygroscopic to all moisture, attracts and binds water extremely effectively and provides a higher protective layer of moisture on the skin and hair to improve hydration
SACCHARIDE ISOMERATE Active	Of plant origin, derived from wheat, it has an effective moisturising action, it nourishes, soothes, decongests, and binds to the skin like a magnet by creating a synergy with the keratin present in the body. It is dermo-compatible and therefore does not cause irritation or redness
AMMONIUM LAURYL SULFATE Anionic surfactant	Primary anionic surfactant of vegetable origin, derived from coconut oil, easily biodegradable. Suitable for high quality production.
PANTHENOL Active	It treats and purifies the skin and hair. In addition to its well-known moisturising properties, panthenol is also emollient and soothing. It has remarkable moisturising properties, as it is able to give the right amount of moisture to the hair (avoiding dehydration and brittleness). It is non-toxic, non-sensitising and non-irritating to the skin.
VITAMIN E Antioxidant	It reduces UV damage to the skin by relieving burns and restoring the skin's natural balance.
YLANG YLANG ESSENTIAL OIL Active	It stimulates the scalp and the activity of the hair bulb. Excellent restructuring, nourishes and perfumes the coat
VITAMINA PP Active	Anti-inflammatory, anti-free radical, soothing action. Vitamin PP is used for the treatment of skin inflammations

## HOW TO USE:

Take a small amount of product,  
Dilute as required (we recommend 1:30).  
Apply to wet hair,  
Massage and rinse with water.

# DISTRICANTE SPRAY

## DETANGLING SPRAY

with Provitamin B5 and Sage Essential Oil

The DETANGLING SPRAY effectively removes knots. A versatile and essential product that can be used both before washing, to protect the hair from stress and facilitate grooming, and after washing, to facilitate brushing, and as a final touch.

The presence of Provitamin B5 (Panthenol) promotes hydration and nutrition, repairing damaged hair, leaving it softer, shinier and more fragrant.

It is not greasy and does not weigh down the coat, which will be easy to brush and shiny.

INCI	PROPRIETA'
HYDROXYPROPYL BIS-HYDROXYETHYL DIMONIUM CHLORIDE Cationic Humectant	It is highly hygroscopic to all moisture, attracts and binds water extremely effectively and provides a higher protective layer of moisture on the skin and hair to improve hydration
PANTHENOL Active	It treats and purifies the skin and hair. In addition to its well-known moisturising properties, panthenol is also emollient and soothing. It has remarkable moisturising properties, as it is able to give the right amount of moisture to the hair (avoiding dehydration and brittleness). <u>It is non-toxic, non-sensitising and non-irritating to the skin.</u>
SAGE ESSENTIAL OIL Active	Antibacterial deodorant on odour-producing micro-organisms, healing skin, has an anti-inflammatory, antimicrobial action and repairs the skin tissue. It is indicated for dermatitis, insect bites, skin ulcers, fungal infections such as mycosis and candidiasis.
VITAMIN E Antioxidant	It reduces UV damage to the skin by relieving burns and restoring the skin's natural balance.
LAURYL MIRISTYL ALCOHOL Emulsifier	A fatty alcohol derived from vegetable oils is easily biodegradable and GMO-free. Its effects are emollients, emulsifiers and lubricants.

### HOW TO USE:

### DATA SHEET:

#### PRE WASH TREATMENT:

to loosen knots, spray from a distance of 15/20 cm. Leave to work for a few minutes, brush and wash with our ACTIVE DOG line of CLEANSERS

# GOCCE AURICOLARI EAR DROPS

With Eucalyptus, Geranium and Melaleuca (Tea Tree) Essential Oils

Cleaning your dog's ears is an important habit to maintain the health of his hearing system. Ears are susceptible to a build-up of dirt, bacteria, fungi and parasites which can be a source of infection which, if neglected, can lead to serious illness.

ACTIVE EAR DROPS combine effectiveness with gentleness.

The synergy between Eucalyptus, Geranium and Melaleuca (Tea Tree Oil) essential oils ensures the cleaning of the ear system of adult dogs and puppies.

The antiseptic, soothing, healing and rebalancing properties of the valuable raw materials contained in the product promote tissue regeneration.

In addition, the active ingredients also have a repellent effect, preventing infestation by parasites.

INCI	PROPRIETA'
EUCALYPTUS ESSENTIAL OIL Active	It has antiseptic functions and helps to regenerate the skin. Eucalyptus can be used to treat irritated skin and also works as an insect repellent.
GERANIUM ESSENTIAL OIL Active	Anti-inflammatory, astringent and soothing properties. Used on the skin, it has a strong healing and balancing effect.
TEA TREE OIL Active	Natural antibiotic adjuvant in the prevention of infections, has antifungal, antibacterial and antiparasitic properties. Excellent to fight effectively against bad smells
PROPANEDIOL Solvent	It is a naturally occurring solvent capable of replacing petroleum-based glycols. It is produced from raw materials from renewable sources (corn)

## HOW TO USE :

Apply two or three drops of product without going too deep and massage the base of the ears. Leave the product to work for a few minutes and, if necessary, wipe off the excess liquid with a clean cloth or gauze. It is recommended to use once every 2 or 3 days per week.

## DATA SHEET:

APPEARANCE : Liquid

COLOR : colourless

ODOR : Geranium and Eucalyptus

PH:  $6 \pm 0.5$

**WARNINGS:** do not use on infected wounds, burns

# PASTA PROTETTIVA PROTECTIVE PASTE

With Zinc 30% and Neem and Lemongrass Essential Oils

Naturally antioxidant and adjuvant in the healing of wounds and dermatological problems.  
PROTECTIVE PASTE with 30% zinc has an anti-inflammatory action against burns and dermatitis.

It is excellent for itchy skin, soothing and refreshing to the skin, stops bacterial growth, heals pressure sores and promotes skin rebalancing, healing of wounds and cracks.  
The addition of Neem and Lemongrass essential oils ensures a repulsive action and protection against insects and parasites.

INCI	PROPRIETÀ
NEEM ESSENTIAL OIL Active	With interesting eudermic properties, it integrates very well with the skin's hydrolipidic film, preventing the evaporation of water from the skin. It has moisturising, emollient, anti parasitic and anti-fungal properties.
LEMONGRASS ESSENTIAL OIL Active	Antibacterial, fungistatic and fungicidal activities have been confirmed by several in vitro studies. Citronella has also an insect repellent action
ZINC OXIDE Active	Anti-inflammatory against burns, antiseptic dermatitis blocks the proliferation of bacteria, healing promotes the rebalancing of the skin, soothing refreshes and removes the sensation of burning.
LANOLIN Emollient	Being a complex natural product, lanolin cannot be synthesised in a laboratory. It has waterproofing and protective functions, moisturises and soothes dry and cracked skin. Effective in the treatment of cracks

## HOW TO USE:

Apply a 30% zinc oxide protective paste onto the affected area after thorough disinfection.  
For best results, 2 or 3 applications per day are recommended.

## DATA SHEET:

Professionale : 500 ml Jar

Standard : 100 ml Jar

WARNINGS: do not use on infected wounds, burns

# DEO STOP

ODOUR REMOVER

Detoxifying and anti-pollution with Zeolite and Vitamin PP

Revolutionary formula based on Zeolite, a mineral of volcanic origin rich in mineral salts which, thanks to its negatively charged crystalline structure, absorbs cations, including toxins and heavy metals.

Its porosity favours the absorption of undesirable liquids and the trapping of molecules which give off odours.

Due to this peculiarity just described, we have designed a product with effective ANTI-ODOUR properties, with depurative and antioxidant activity.

The addition of Vitamin PP provides additional qualities with an anti-inflammatory, toning, moisturising and elasticizing effects, making it an adjuvant product in cases of redness, itching and irritation.

INCI	PROPRIETA'
VITAMIN PP Active	Anti-inflammatory, anti-free radical, soothing action. Vitamin PP is used for the treatment of skin inflammations.
ZEOLITE Active	For purification of heavy metals, toxins and free radicals. It selectively absorbs pollutants. This mineral is excellent for itching, dermatitis, eczema, psoriasis and other skin disorders
VEGETABLE GLYCERINE Nourishing	It is an excellent substance for nourishing hair, especially if it is dry and brittle. It deeply moisturises and gives perfect elasticity and softness by promoting the regeneration of the epidermal cells. It also has protective, emollient, decongestant and refreshing properties.

## HOW TO USE :

Spray on the animal's coat from a distance of 15/20 cm, avoiding contact with eyes and mucous membranes.  
The treatment can be repeated several times a day, whenever necessary.  
It can be used on animals of all ages.

## DATA SHEET:

APPEARANCE : Liquid  
COLOR : colourless  
ODOR : Unscented  
PH:  $6 \pm 0.5$

FLAMMABILITY : Non Flammable

Professional : 200 ml Spray Bottle

Standard : 100 ml Spray Bottle

**WARNINGS:** do not use on infected wounds, burns

# SPRAY ZAMPE

## PAWS SPRAY

With Cajeput, Sage and Tea Tree Essential Oils

Disinfectant, Emollient, Dermo-protector.

The special feature of this product is the precious functional principles of Cajeput, Sage and Tea Tree Essential Oils, which act on the animal's coat and skin with an antibacterial, antiparasitic, moisturising and emollient effect.

An innovative product, an aid to hygiene and paw care, by spraying PAWS SPRAY, the pads will be moisturised and protected from heat or cold.

Effective in soothing redness and itching.

Antifungal action to protect claws and antiparasitic action (topical).

INCI	PROPRIETA'
ZIZIPUSJUJUBA MILLER Active	Phytoextract of the Brazilian plant Zizipus Joazeiro, a natural product composed of saponins with a targeted action on the dermatophytes responsible for mycosis, it minimises their ability to develop and it also has a protective and soothing action.
HYDROXYPROPYL BIS-HYDROXYETHYL DIMONIUM CHLORIDE Cationic Humectant	It is highly hygroscopic to all moisture, attracts and binds water extremely effectively and provides a higher protective layer of moisture on the skin and hair to improve hydration
CAJEPUT ESSENTIAL OIL Active	It is useful as an application in the treatment of infections of bacterial and fungal origin. It is also excellent as an anti-parasitic, flea, lice and mosquito repellent, balsamic, skin cleanser, vasoprotective effect, decongestant, helps to soothe redness and irritation.
SAGE ESSENTIAL OIL Active	Antibacterial deodorant on odour-producing micro-organisms, healing skin, has an anti-inflammatory, antimicrobial action and repairs the skin tissue. It is indicated for dermatitis, insect bites, skin ulcers, fungal infections such as mycosis and candidiasis.
TEA TREE OIL Active	It is a natural antibiotic adjuvant in the prevention of infections, has antifungal, antibacterial and antiparasitic properties. Excellent to fight effectively against bad smells
GLYCOL PENTYLENE Natural preservative	Natural preservative derived from sugar cane. It maintains the skin's moisture content by creating a protective barrier. It inhibits the growth of micro-organisms.

### HOW TO USE :

Spray PAWS SPRAY onto the paws from a distance of 5 cm.  
Massage lightly and allow to dry  
The treatment can be repeated several times a day as often as necessary  
It can be used on animals of all ages
